## Portable Power Pack

PRODUCT SPECIFICATIONS

**12V/24V**

**For Trucks & Construction Equipment.  
Jobsite Ready. 5020 is for Aero Applications  
& FBO's (Fixed Base Operations)**

**Model  
5000 &  
5020**

If you need a rugged, dependable, power, and portable power pack for jobsites, heavy equipment service, FBO's, truck terminals, construction and ag equipment—we have just what you are looking for. The Rescue 5000 provides a portable package delivering 1800 CCA or more depending on the particular group 31 batteries you install.

With 10' all-copper 1/0 welding cables and 800 amp clamps, the Rescue 5000 is built to deliver power when and where you need it, both 12V and 24V. Easily maneuverable with its 10" pneumatic tires and balanced design, it's the perfect tool for moving around a jobsite and getting things going quickly.

The model 5020 adds an auxiliary aero output on the side that accepts Quick Cable aero cables for Cessna and Piper connections, so for FBO's, it's the solution to starting anything on or around the tarmac.

A digital voltmeter and onboard battery charger complete the package.

When the going gets tough, the Rescue 5000 gets the tough stuff going.
